URGES PUPILS TO CONTINUE SCHOOL

COUNTY SUPERINTENDENT ISSUES PERSONAL LETTER TO PUPILS.

WANTS THEM IN HIGH SCHOOL

Tells Them, However, They Must Consider Health First and Then Education.

The County Superintendent's office is today mailing a personal letter to each graduate of the common schools, class of 1913, urging that all who can do so, enter some high school this fall. If, however, parents decide that they do not wish the graduate to thus proceed with his education, Supt. Miller urges that the wishes of the parents be respected, and that the graduate re-enter the rural, or common schools for a vigorous and thorough review and that this be done cheerfully and willingly, on the part of the graduate.

If continued attendance at school will mean ruined eyesight, or impaired health, then, upon the advice of a physician, health should be considered first, and education second. Mr. Miller is advising the graduate, that, by the provisions of the new "Free High School Tuition Act" passed by the last General Assembly, and now in force, hereafter parents will not pay high school tuition, but that the responsibility for the payment of all such tuition now rests with the school district in which the pupil lives.

Each graduate is requested to write to the Co. Supt. soon after the opening of school, advising him as to where he has entered school. The names of the graduates will be published soon after Sept. 15, 1913, in classified lists, and will be a very desirable information to the general public which pays the bills for the education of the boys and girls, and which joins with the Co. Supt. in an abiding interest in the future welfare of these who complete the course of study provided for the common schools.

Mr. Miller feels certain that each graduate will comply with this request, promptly, at the proper time.

MRS. SWARTWOUT DIED IN ELGIN YESTERDAY

WIDOW OF NELSON F. SWARTWOUT PASSED AWAY AT SON'S HOME.

Mrs. Amelia Swartwout, widow of Nelson F. Swartwout of Morgan Park, formerly of Dixon, passed away Tuesday afternoon at the home of her son Walter in Elgin at the age of 71 years.

Amelia Nettleton Swartwout was born in Stockbridge, Mass., Sept. 23, 1842. She was married there to Nelson F. Swartwout Oct. 25, 1869 and soon the couple moved to Illinois, settling in Sublette, this county. Later they moved to Dixon and built a home in North Dixon, at the corner of Galena avenue and Everett street. For several years Mr. Swartwout ran a tile factory in Swissville. They moved to Chicago several years ago.

Mrs. Swartwout is survived by three children: Walter R. of Elgin; Mrs. Mina Clissold and Miss Nellie of Morgan Park, and two brothers, Wm. A. Nettleton of Stockbridge, Mass., and G. B. Nettleton of Colorado Springs, Colo., and one sister, Mrs. Edw. L. Johnson of Assembly Place, Dixon.

Mrs. Swartwout's home is in Morgan Park, but she was visiting her son in Elgin when death came. She was a woman of beautiful character and possessed a large circle of loving friends who will deeply mourn her loss.

The funeral will be held at the late home in Morgan Park, 2222 Fairfax Ave., Thursday at 2:30 p. m. The burial, which will be private, will take place in Mt. Greenwood.

MRS. WILLIAM SULZER.

Wife of Gov. William Sulzer of New York, who assumed all the responsibility for the basis of the charges made against her husband, the use of campaign funds in speculation in Wall street.

NEW ELECTION NECESSARY IN N. DIXON

MORE FUNDS NECESSARY AND OFFERED BY MR. LOVELAND FOR NEW SCHOOL.

Inability to get bids on the new Loveland school within the \$6,000 offered by George C. Loveland, and the necessity of building and equipment such as has been planned has made it necessary for the North Dixon school board to plan a special election for some future date, when the voters will be asked to vote an additional \$4,500. Mr. Loveland having agreed to give that amount and accept bonds bearing 5 per cent interest, the bonds to revert to the school district at his death.

Because of the legal requirements to be met the date for the election cannot be set by the board for some time. It was hoped to hold the election August 19th, but it has been learned that it will be impossible to submit the question so soon.

ALTMAN SCOUTS FOR ASSEMBLY TALENT

DIXON PASTOR ON VACATION ON THE LOOKOUT FOR 1914 ATTRACTIONS.

Dr. Altman, pastor of St. Paul's Lutheran church and a member of the Rock River Assembly, has been granted three weeks' vacation by the officers of his church and he left today on a trip during which he will look over prospective talent for next year's Assembly. Dr. Altman will go first to Winona Lake and listen to the feature talent there and before returning will also visit other chautauquas. His being sent on this mission by the directors of the Assembly indicates that he will likely be made chairman of the program committee for next year's Assembly.

GOOD GAME IS THE PROSPECT SUNDAY

NEW PITCHER IS PROMISED TO WORK FOR DIXON STARS.

Next Sunday's ball game between the Dixon Stars and the fast Kinkland team should be one of the most interesting of the season as the Kinkland bunch comes to Dixon with the reputation of being one of the hardest teams in northern Illinois to trim, their list of victories including the Jake Stahls of Chicago, the DeKalb and Elgin teams and a number of semi-pro teams in and around Chicago. Manager Whitebread of the Stars is planning to spring a new pitcher on the fans at this game, but he is exhibiting the utmost secrecy regarding the new box artist, contenting himself with the promise that the new twirler will be "some pitcher."

FRANKLIN CHAUTAUQUA OPENS THURSDAY

FINE ARRAY OF TALENT SHOULD DRAW BIG CROWDS TO FRANKLIN.

ON THE CAMPMEETING GROUNDS

ALLEGED FORGER BOUND OVER ON \$500 BONDS—CHARGE BY MRS. PHILLIPS.

Adolph Tomac, who was arrested yesterday on a charge of forgery preferred by Mrs. Lon Phillips and the Dixon National bank over a year ago was arraigned before Justice A. H. Hanneken this morning. He waived preliminary examination and was bound over to the September grand jury under bonds of \$500, failure to furnish which caused his return to the county jail.

BOARD OF REVIEW UNCOVERS MORTGAGES

BOARD IS VERY ACTIVE AND IS DOING GOOD WORK THIS YEAR.

The Lee county board of review is nearing the end of its work and within a short time will be able to submit figures to show that it has accomplished much in increasing the amount of assessable property in the county. Nearly \$200,000 worth of mortgages were discovered among the records and many corporations whose schedules have remained unchanged for years will have to pay taxes on increased valuations because of the board's activities.

NEW PLAYER WITH BROWNS.

The management of the Browns has secured Crowley, a fast outfielder, who played part of the season with the Green Bay W. I. league team, to occupy the left garden in Sunday's game at Sterling, when Dixon's new team will tackle the Sterling West Ends. The new outfielder is reported to be a hard hitter and a great ground-coverer.

ROCK RIVER MADE A FISH PRESERVE

REP. DEVINE WIRES THAT COMMISSION ACCEDES TO DEMANDS.

FROM MOUTH TO WISCONSIN

No Fishing Other Than With Hook and Line Will Be Allowed and the Stream Will Be Stocked With Fish

Messages received today from Representative John P. Devine, who is at Springfield, are to the effect that the state Fish & Game commission has heeded the many requests from this district and has made Rock river, from its mouth to the Wisconsin state line, one of the state fish preserves.

For some time members of the Dixon Fish club, Mr. Devine and other lovers of angling in this vicinity have asked to have all of the rivers in the state set aside as a preserve, while the Sterling fishermen were working to have only the pond above the government dam there, known as Sinnissippi lake, made a preserve.

Will Protect Fish.

However, Hon. John Devine and ex-Mayor Dittmar of Freeport, who was made a member of the state commission by Gov. Dunne, lined up in favor of making the entire river within the state a preserve, and accordingly the commission has ordered that the stream and all its tributaries, including the Pecatonica river, shall come under the rules of the commissioner.

Under the fish law the use of nets or traps of any kind is prohibited in any state fish preserve and accordingly the use of these devices must be stopped at once. Further, the section of Rock river as a preserve means that the state will see that the river is thoroughly stocked with all kinds of native fish.

Naturally, the real sportsmen along the river, who fish for the love of the sport and not for commercial purposes, are pleased at the success of the movement to make Rock river a state preserve, for it means that the stream will become one of the best fishing grounds in the state of Illinois.

What the Law Says.

In order that fishermen on the river may know the regulations the action of the commission places on fishing in the stream the following section from the new fish and game law is printed:

"The commission shall have power and authority to set aside at its discretion such waters within the jurisdiction of this state as they may judge best as state fish preserves in which it shall be unlawful to fish with any device except hand line or rod and line. The commission shall post such waters at the outlet and at highway crossings of same by conspicuous notice and shall publish such notice once in a newspaper published in each of the counties in which such waters are located.

"Any person taking, catching or killing, or attempting to take, catch or kill any fish with any device or by any method except hand line or rod and line in any waters set aside under the provisions of this section, shall be deemed guilty of a misdemeanor and on conviction thereof shall be sentenced, for the first offense, to pay a fine of not less than \$50 or more than \$100, and for the second offense not less than \$100 nor more than \$200; and in either case shall stand committed to the county jail, there to remain until such fine and costs are fully paid."

The law also provides that the deputy wardens shall patrol the rivers so set aside at advisable times with motor boats, and the size of fish caught and offered for sale shall also be the subject of inquiry by the wardens.

GOV. WILLIAM SULZER

GOV. WM. SULZER IMPEACHED BY THE N. Y. LEGISLATURE

LOWER HOUSE OF NEW YORK TAKES DRASTIC ACTION REGARDING GOVERNOR.

WIFE TAKES THE BLAME

Chief Executive of State is Charged With Misuse of Funds and False Sworn Statements.

BULLETIN.

Albany, N. Y., Aug. 13.—Special to Telegraph—Wm. Sulzer, governor of the state of New York, was impeached by the lower house of the state legislature at 5:16 this morning after an all night session, by a vote of 79 to 45, on charges of having diverted campaign contributions to his private use and having made, under oath, false statements as to his campaign expenses.

Albany, N. Y., Aug. 13.—At a late hour last night the lower house of the New York legislature met to vote on Majority Leader Levy's resolution to impeach Governor Sulzer on charges of willful and corrupt conduct in office, and high crimes and misdemeanors.

At a late hour the assembly was still in session and apparently was far from a vote on the resolution of impeachment. Since 10 p. m., when the night session began, the members have been engaged in heated debate, with no sign of a lull.

Opponents Claim Victory.

The Democratic organization claimed more than enough votes to adopt the resolution for the impeachment. Governor Sulzer's friends made no claims.

Mrs. Sulzer Absolves Husband.

While the lower house of the New York legislature was debating the question of impeaching Governor Sulzer in a session begun at ten o'clock last night and promising to continue until daylight, the startling report spread through the capitol that Mrs. Sulzer had assumed all responsibility for the basis of the charges made against her husband, the use of campaign funds in speculation in Wall street.

The story was that she had broken down when Senator Palmer called at the governor's home on a Grand Army mission, and with tears in her eyes told him that it was she, not the governor, who speculated in stocks and that she signed checks for that purpose.

Mrs. Sulzer Takes Blame.

The story relating to Mrs. Sulzer seemed to evoke more interest than the night debate on the Levy resolution, which accused the governor of "high crimes and misdemeanors" and impeached him on charges made by the Frawley investigating committee. In detail the report was that Senator Palmer, a Grand Army veteran, called at the executive mansion to consult Governor Sulzer concerning the dedication of a monument at Andersonville, Ga. Mrs. Sulzer is said to have confided her story to the senator during his call.

"I am wholly to blame for this whole affair," she is quoted as saying.

Governor Ignorant of Deals.

The governor, it is said, knew nothing of his wife's dealings on the stock exchange until shortly before the Frawley committee began its investigation. When he first heard the revelations, his friends say, he refused to believe them, ridiculed them as a hoax and branded them as an attempt to bring about his resignation.

When it was seen later that the Frawley committee was in earnest in its investigation Mrs. Sulzer, it is declared, told the governor of her actions and volunteered to make a public statement detailing them.

This Governor Sulzer emphatically refused to permit.

SOLDIERS & SAILORS ELECT OFFICERS

REUNION CLOSED THIS MORNING WITH A BUSINESS MEETING.

GEORGE D. BLACK, PRESIDENT

A. C. Thummell, Vice President; S. A. Youngman, Secretary and Treasurer—Camp Fire Last Evening.

The annual reunion of the Northwestern Illinois Soldiers and Sailors' association, held yesterday and today at Assembly park, closed this morning with the election of the following officers for the coming year:

President—Geo. D. Black, Franklin Grove.

Vice President—A. C. Thummell, Sterling.

Secretary-Treasurer—S. A. Youngman, Dixon.

The business meeting, at which the officers were elected, followed a number of very happy regimental reunions in which comrades who fought side by side in the great war of the rebellion, met and recalled incidents that overshadowed in their minds the many trials and hardships of the campaigns.

Camp Fire Last Night.

A camp fire, which was of especial interest to the veterans, and which was largely attended by the public, was the feature of the reunion last night. Addresses were made by famous members of the association, readings by several of the ladies and a session of reminiscences interspersed by music by the Y. M. C. A. quartet and songs by Comrade Wernick made the camp fire a really enjoyable affair.

The registration at the close of the reunion showed 198 veterans in attendance.

ABSOLVE MOTHER FROM ALL BLAME

CORONER'S JURY IN LEE CASE FINDS DEATH FROM NATURAL CAUSES.

Lee, Ill., Aug. 13.—Special to Telegraph—The coroner's jury, summoned to inquire into the death of Basil Thomas, the 12 year old boy whose death was rumored to have been caused by the failure of his mother to call a doctor, returned a verdict late yesterday afternoon to the effect that the lad's death resulted from natural causes and no blame was fixed.

When the testimony concerning the Wall street transactions was brought out Mrs. Sulzer again insisted, according to the story, that she tell all and save her husband.

On the advice of James Gay Gordon of Philadelphia, who was Governor Sulzer's attorney in the Mignon Hopkins breach of promise case, Mrs. Sulzer, it is said, was persuaded to remain silent.

Her Reason for Speculating.

According to some friends in whom Mrs. Sulzer has confided, she has declared she used some of the governor's campaign contributions because she felt that the household "was in need of money."

It is reported that Mrs. Sulzer is preparing a detailed statement for publication today. In this statement she is said to have itemized all her transactions in Wall street in which any of the governor's campaign funds were involved.

Asked about the story relating to his wife, Governor Sulzer referred all inquirers to Senator Palmer, who declined either to confirm or deny it. He is reported as having told it to a select coterie of the governor's supporters.

Governor's Papers Missing.

It was said by friends of both the governor and his wife that, during the campaign, Mr. Sulzer gave Mrs. Sulzer \$300 for personal expenses. She is said to have told her confidantes that this sum was invested with others in the stock market. The governor's friends believe this would account for the \$300 payment to Boyer, Griswold & Co., mention of which was made in the testimony before the Frawley committee.

HUERTA DEPLORES TALK OF WARFARE

Mexican President Cables Paris That Uneasiness Has No Foundation.

JOHN LIND MEETS MINISTER

Wilson's Representative and Chief of Republic's Foreign Affairs Hold Unofficial Conference—Diaz Ignored by Japan.

Paris, Aug. 13.—The Matin, having cabled President Huerta that some anxiety had been caused by dispatches received here concerning the relations between the United States and Mexico has received the following message from Mexico City:

"Anxiety over the relations of Mexico with the United States is without foundation."

Mexico City, Aug. 13.—John Lind, President Wilson's special envoy to Mexico, succeeded in being received unofficially by Minister of Foreign Affairs Frederico Gamboa.

Both Mr. Lind and Senator Gamboa insist that no great importance attached to the visit. The Mexican government still is insistent that it will not deal with Mr. Lind officially nor listen to any suggestion from him as to mediation or to any proposal emanating from his government.

Both Avoid Mission.

Mr. Lind was presented to Senator Gamboa by Nelson O'Shaughnessy, charge d'affaires of the American embassy, in the character of a private citizen. The conversation between the Mexican cabinet officer and Mr. Lind was entirely informal, both carefully avoiding the subject of politics or the mission which is entrusted to Mr. Lind by President Wilson. It is believed there will be little development in the situation before Thursday.

Rebels Loss 3,000.
Official reports received are to the effect that Torreon, which has been under active siege for some weeks, had been relieved and the rebels defeated with a loss of 3,000 men killed, wounded or taken prisoners.

Washington Is Encouraged.
Washington, Aug. 13.—News from Mexico City that John Lind and Minister Gamboa had established unofficial relations by a personal meeting brought encouragement to administration officials here.

Japanese Bar Diaz.
Vancouver, B. C., Aug. 13.—Gen. Felix Diaz will not sail today by the Empress of Russia for Japan. Instead he will, with his party, tour to Quebec, London, Paris, Berlin, Vienna and St. Petersburg, and reach Japan by the Trans-Siberian railway.

As an explanation, the Mexican special envoy says that owing to telegraphic instructions from Mexico City he had been forced to change his plans.

Barred by Japanese.
Tokyo, Aug. 13.—Japan intimated to the Mexican government that it would not receive Gen. Felix Diaz as special envoy. It declared it would receive him only as a private individual.

Avoids Offending America.
Washington, Aug. 13.—Japan's intimation to Mexico that it would receive Gen. Felix Diaz only as a private individual was generally construed in official quarters as showing a desire on the part of Japan to avoid anything open to the construction of being unfriendly to the United States.

HOLDS TOBACCO TRUST GAINS

Senator Hitchcock Will Press Amendment for Graduated Income Tax.

RAPS CAUCUS GAG RULE

Says Combine Controls Trade More Effectively Than Before Dissolution—Thornton Votes Against Democrats.

Washington, Aug. 13.—While discussing the tariff schedule on tobacco in the senate, Senator Hitchcock declared that the tobacco trust, instead of being dissolved by the decree of the federal supreme court, has increased its monopolistic control of tobacco manufacture. He announced that he intended later to press his amendment which would place a graduated income tax on tobacco production.

Reading from statistics furnished by the secretary of the treasury, he declared that four concerns formerly comprising the tobacco trust manufactured last year 71 3-5 per cent. of all tobacco manufactured in the United States and that three of these concerns manufactured 90 per cent. of all the small cigars, and 85 1/2 per cent. of all the cigarettes.

Holds Caucus Rule Improper.
"If the American people are in earnest," he added, "they want this monopoly curbed. If the United States senate is in earnest it ought not to permit any rule of a party caucus to restrain a senator from voting for a measure that would put a stop to defiance of a judicial decree, and restore a condition of competition in the world of tobacco manufacture."

The tobacco schedule was approved by the senate without amendment, the metal schedule was completed, with the exception of some paragraphs which the finance committee had passed for further consideration, and the sugar schedule was passed over because of the illness of Senator Randall of Louisiana.

Assail Agricultural Rates.
In voting on changes in the agricultural schedule a Democrat for the first time voted against the party amendments, when Senator Thornton of Louisville lined up with the minority. Senator Gronna of North Dakota offered a number of amendments, all of which were rejected. These sought to levy duties on cattle, increase the rate on horses and mules, and place buckwheat flour and broom corn on the dutiable list. Senator Catron's amendment to tax sheep also was rejected. Action on amendments offered by Senator Gronna to increase the duty on oats, oatmeal and oat feed was deferred until tomorrow.

M'ADOO UPHELD BY HOUSE
Will Not Be Compelled to Tell of Conspiracy.

Washington, Aug. 13.—Secretary McAdoo was saved the necessity of baring to the house the source of his information concerning a conspiracy by New York bankers to defeat currency legislation through the depression of government two per cent. bonds by a rally of Democratic members under the leadership of Mr. Underwood.

With a decisive vote of 210 to 55 the house buried an effort to pass a resolution calling on the secretary to give proof of the charge he made when the bonds were forced to sell on the New York stock exchange.

While trying to force the resolution through the house, Republican Leader Mann declared that if Secretary McAdoo made the charge without knowing it to be true he should retire.

HEAR GIRL ACCUSE DIGGS
Says Threat of Arrest Induced Her to Make Trip.

San Francisco, Aug. 13.—Hundreds listened while Marsha Warrington testified in the case against Maury I. Diggs, former state architect, accused of violation of the Mann act in transporting her to Reno, Nev., from Sacramento, Cal.

The girl swore Diggs bought the railway tickets and paid for the sleeping car drawing-room they occupied. She swore she saw the tickets delivered to the conductor.

Mrs. Warrington said she was twenty years old and lived with her father and stepmother.

She testified that she made the trip only when threatened with arrest.

L. N. C.'S KINDNESS

During the camp fire at the auditorium last night, held by the Northwestern Soldiers' and Sailors' association, which was largely attended and very interesting to those present, President Charles Bent of the association, made a motion that a vote of thanks be extended to the Illinois Northern Utilities company of this city for their kindness in tendering gratuitously the electric lights for the park and auditorium during the session of the association. The motion was heartily seconded and carried by the veterans, who appreciate highly the kindness and consideration of the local officials of the corporation in their thoughtfulness of the comfort of the defenders of the nation.

This committee deals with railroads and railroad employees and is one of the principal state committees. There is no secret surrounding the fact that Mr. McGovern is a candidate for the plum and he is a deserving man for the place.

The name of Fred Sterling as minority representative on the Pontiac reformatory board is also mentioned in the list.

MR. LOVELAND IS LAID UP.

George C. Loveland has had bad luck since he went to Sturgeon Bay, Wis., recently on a pleasure trip with Mrs. Loveland.

He sprained his back while trying to push his boat into the water while preparing for a fishing trip, of which sport the Dixon man is very fond, and since the accident he has been flat on his back in his room in the hotel, not even able to get up to his meals. He writes that he hasn't yet caught a fish.

The many Dixon friends of the genial gentleman will wish him a speedy recovery.

LASALLE COUNTY HAS
A CONCRETE HIGHWAYGIVE BARBECUE IN HONOR OF
OPENING—LEE OFFICIALS AND
CITIZENS INVITED.

The township of LaSalle in this state has just completed the construction of approximately a mile of concrete highway, 20 feet in width, which will be thrown open to traffic Aug. 21st. The citizens of LaSalle have planned to make the event notable by a great demonstration in favor of good roads. The governor of the state, the new highway commission and other notables are expected to be present.

Through a letter addressed to E. B. Raymond, secretary of the Citizens' association, an invitation is extended to all members of this organization, members of the board of supervisors and citizens of this county generally to be guests of the business men of LaSalle at a barbecue and numerous other entertainments which will be features of the celebration, the purpose of which is to accelerate the sentiment in favor of good roads in Illinois.

A large number from this vicinity will without doubt plan to visit LaSalle on August 21st and see this new and up-to-date improved highway and share in the celebration of its completion.

CATHOLICS MAY
EAT MEAT FRIDAYFEAST OF ASSUMPTION OF THE
BLESSED VIRGIN WILL BE
CELEBRATED

Catholics will observe the feast of the Assumption of the Blessed Virgin on Friday, Aug. 15 and at the Catholic church in this city special masses have been arranged.

Next Friday is not a day when abstinence from flesh meats is required by the church, but by a special dispensation meat is allowed on that day. Thursday, however is a day of fasting and abstinence.

The Assumption of the Virgin Mary is a festival of the Roman Catholic church, and was first celebrated on Aug. 15, in the sixth century. The belief is that the soul and body of the Virgin had been carried up to heaven by Christ and his angels. Some historians say it originated in a Gnostic legend of the third or fourth century, but had not gained credence in the church until near the beginning of the seventh century. The festival of the Assumption was instituted in commemoration of the event. Until the fourth century, the same date had been observed in memory of the death of the Virgin.

TAKE A TRIP ON
THE MANITO

Have you made up your mind where and how to spend your vacation? We would suggest a trip to Mackinac Island, on the beautiful steamship Manitou, one of the most comfortable and well appointed boats on the Great Lakes. Most excellent meals are served and every attention is given to guests while in the dining room by Mr. Donnelly the steward.

The Manitou is in command of Capt. William Finnean, a dignified gentleman and every inch a captain.

It would not be well to pass on without mentioning Thomas Collins the jolly Chief Engineer, who has traversed the stormy lakes for forty or fifty years, and is one of the best known and best liked engineers on fresh water.

And speaking of Tom Collins, his mates have a good joke on him. He tells it himself.

Mr. Collins can run the machinery of any boat he ever saw, and never had an accident on water, but not long ago he bought an automobile, and he soon discovered that he had tackled something that was out of his line. He couldn't keep in between the fences and the thing tried to climb every telephone pole it came to.

It soon met something bigger than itself, and the wild ride ended, much to Tom's relief. He says that he is going to stick to the deep blue sea after this.

PRINCESS THEATRE.

Tonight at the Princess a 2-reel film, The Failure of Success will be shown. A moral drama teaching that wealth gained at the price of happiness and sacrifice of honor brings no happiness. With gold beyond his wildest dreams, despised by his fellow men, scorned by the women whose lives he nearly wrecked and with his own child turning away from him, Jabez Crow, obsessed with remorse destroyed himself, leaving a will in which he makes reparation for the wrongs he committed.

SOMEBODY MUST PAY

People generally seem to have the idea, that if the government pays anything, it is no expense to anybody. Thus mothers' pensions, minimum wages, employers' liability, short hours by statute and the scores of other laws that lessen the production of factories and stores, are passed seemingly with the idea that they will make conditions easier for their beneficiaries and harder for no one. It is a sad fact that somebody must pay everything is paid. It is just as sad and just as much a fact that the people must pay.

Thus it follows that all these up-lift laws merely raise or lower the plane of prices without changing in the least their relation. If the wages of employees are increased, and their hours of work shortened, it merely increases the cost of the products of the factories. Every shift to the extent of its connection with such products, the employees eventually have to pay for what they have at the new scale of prices, and behold they are still at a financial disadvantage when compared to the wealthy. A revenue from a tariff on imports is done away with and the money thus lost is attempted to be replaced by a tax on the incomes of the wealthy.

What is the result? The wealthy merely pass it along to the consumer of their products. Of late there has been a strong development of the theory that natural conditions may be changed at the will of legislators and by statute. That eternal economic conditions will yield and dissolve at a governor's message. This is really believed by many. Few of

those who get votes by advocating such theories believe it, but many who merely look at the situation on its surface do. Even pure socialism would hardly class its ability to bring about such conditions as the real, genuine successful politician of the day promises off hand. What can be hoped for the true progress of the country while such conditions exist and are popular.—Harvard Herald.

OREGON TO OPEN PANAMA CANAL--
STORY OF RUN OF GALLANT SHIP

Washington: Arguing that the far—that caused Uncle Sam to deter sentiment of history requires that mine to build the Panama canal. As the battleship Oregon, whose famous it was, there was nothing to do but trip around the Horn during the to the order the Oregon around Cape Spanish-American war may be said Horn, involving a trip of over 13,000 miles.

Everyone who is at all familiar with American history remembers the story of that voyage. On March 19 Capt. Clark started from San Francisco. He hastened down the west coast of South America, steam- ed at full speed through the Straits of Magellan, slackening not for rocks, violence and improvement including nor darkness nor wind nor ice in a new military mast and a system of that stormy, treacherous passage and fire control, a wireless telegraph and finally reached Rio. Here he received a number of improved labor and a cable saying war between Spain and the United States had been declared.

So it is that the Oregon is now being modernized at a cost of \$1,000,000 in the Puget Sound navy yard. She is being fitted with every convenience and improvement including a new military mast and a system of that stormy, treacherous passage and fire control, a wireless telegraph and finally reached Rio. Here he received a number of improved labor and a cable saying war between Spain and the United States had been declared.

The Oregon was built and launched in San Francisco in 1893. She had passed her life in the Pacific and was in the Puget Sound dry dock at Bremerton, Wash., March 6, 1898, when the navy department at Washington wired "get ready" to the ships commander, Capt. Chas. Edgar Clark, then at San Diego with the Monterey. The same day the Oregon steamed out of Puget Sound for San Francisco.

The blowing up of the Maine in Havana harbor a few days later made it imperative to the government to assemble the strongest naval force possible in the West Indies, in anticipation of war with Spain.

It was that emergency—with the battleship Oregon so near and yet so

Then the Oregon joined the American fleet on the Cuban coast and on July 3 did her full share toward destroying Cerveras fleet. The story is that the Oregon passed the Indiana, the Iowa and the Texas and held her own as to speed with the cruiser Brooklyn in the rush at the Spanish squadron.

PEOPLE'S COLUMN

URGES INVESTIGATION

Editor Telegraph:

Aug. 11, 1913
In the Telegraph of Monday evening you printed a short story to the effect that some of our Dixon citizens contemplated consulting with the States Attorney with reference to the recent action of the local milk dealers in raising the price of milk to 8 cents a quart.

The writer after reading the article took the trouble to consult an attorney and learns that there is a statute of this state covering the matter as it seems to him quite thoroughly.

By section 269 of the criminal code it is provided that:

"If any corporation, partnership or individual or association of persons shall create, enter into or become a member of or a party to any pool, trust, agreement, combination, confederation or understanding with any other corporation, partnership or other person to regulate or fix the price of any article of merchandise or commodity, such corporation, partnership or individual shall be deemed and adjudged guilty of a conspiracy to defraud and shall be subject to indictment and punishment."

Section 269 also provides that one found guilty of violating this act shall be punished by a fine of not less than \$500 nor more than \$2000 for the first offense.

Now then, if the milk dealers of Dixon have entered into an understanding whereby they have jointly agreed to raise the price of milk to the present price of 8 cents a quart they are severally liable to this severe penalty. Is this not a fit case for investigation and action by the States Attorney and consideration by the Grand Jury?

QUESTION REMAINS A PUZZLE

Unable to Tell Just What Country First Found Value of Cotton.

Where did cotton originate? The question comes up because Brazil claims that it is indigenous to the Amazon valley. It is a fact beyond dispute that cotton, from the earliest ages of the world, has been grown in China and for five to ten thousand years the people of that country have worn cotton clothes. The same is true of India. There is no record of a time when the people of India did not wear cotton cloth, at least a strip of it.

On the American continent the record is much shorter but equally as positive. The first white men found cotton cloth a regular dress of the Indians of Mexico and the Indians of Peru.

It is impossible to say where cotton originated unless it was originated on two continents. The lost Atlantis may have connected the old world with the new, and cotton may have been carried from the new world to the old, or it may have been brought to America many thousands of years ago. All in all we can see no reason why Brazil should claim the distinction of having originated cotton. Neither Peru, Mexico, Persia nor China would consent to that.

Wool is the oldest of fabrics, cotton is next and silk third.

Modern Salome. Queen Victoria, who was very fond of step dancing, one night at Balmoral asked her maid, who she knew had been taking lessons of an eminent dancing mistress, for a little exhibition of her art. Princess Henry of Battenberg, chief musician on the piano, at her mother's court struck up a tune on the piano, and Miss Lambart forthwith began her dance. The queen, delighted, asked her at its close to name something she would like for a reward. Now the maid of honor was conservative in the extreme. "I should like," she said, "the head of Mr. Labouchere on a charger."

REMOVING THE TINSEL

Have you heard the very latest, Louise?" called an excited girl as she ran up the steps of her friend's home. "Philip Maxon is engaged to that cousin of Margery's! The plain one, I mean!"

"I'm not surprised," answered Louise, languidly.

"Not surprised? Well, if she's not the last person on earth that aesthetic Philip should have chosen I'm not a judge of people! Why, every girl in town has been setting her cap for him, and along comes this dowdy girl and calmly takes him away from the rest of us. Of course we all know that she's bright and good tempered, but—"

"That's just it. The brightness and good temper—two small attributes—we've been neglecting. In the whirl of new gowns and smart talk we've forgotten that real worth may occasionally be appreciated by a man. I'm not surprised to hear that they're engaged. I was there!"

"You were there when they became engaged? Louise, don't expect me to believe that Philip proposed to the girl in your presence!"

"I didn't mean exactly that. I merely saw the beginning of the affair and in two days I foresaw the end. I could have told the girls that they needn't have got new evening gowns last month for Philip's dance at the Country club."

"Tell me about the engagement." "Well, Philip had invited a party of us to go with him in his machine to the automobile races in Elgin—you remember them. Margery's young married cousin, and her husband were to chaperone the crowd, and as this girl was visiting Margery, Philip had to invite her. I don't believe he had ever noticed her before."

"You know how particular he is about clothes and how he likes to have his guests well dressed. We all squandered our allowances for months ahead buying new auto togs. We invested in those clever foulard coats, simple but expensive motor frocks and cunning bonnet-hats, with the most gorgeous of veils. That is, we all did except the cousin. You know she's been self-supporting for years and cannot indulge in the extravagances that we pampered pets of successful fathers do—much good it does any of us!"

"Don't attempt sarcasm." "It's not sarcasm. It's just a fact I've learned. Well, we started out late on Thursday afternoon, and we were a handsome party. Philip's machine is perfect, you know. The men were in their top boots and auto clothes, and we girls surely did look well in our new togs—you'll admit we all knew how to dress. Margery's cousin had nothing new—just a simple, dark linen dress, stout boots, a sailor hat, with an old veil of Margery's, and a winter coat that had been seen service. That girl is a brick—she complimented us all on our appearance and she really meant it."

"Are you going to try it?" "Don't interrupt. We had a glorious run out and got into Elgin tired and hungry, about eight o'clock. As that is beyond the ordinary dinner hour, and the place had been overwhelmed with visitors, we were glad to get a haphazard supper in a little restaurant. There the men left us, while they went to find the rooms Philip had telephoned for. We waited. Finally the men appeared much crestfallen."

"The men could find no accommodations and had been advised to camp in the car overnight. We women were agast—we aren't good 'outers,' as you know—all except Margery's cousin. She thought it would be great fun, especially, she remarked, as we could do nothing else except go home and miss the races. So out we girls went and slept in the car, while the men rolled up in the robes on the ground."

"None of us could do up our hair in the morning except the cousin, who has some glorious natural braids. Somehow, in that clear morning light, our bought puffs looked out of place beside her smooth hair. We women were disheveled and cross, but the men had rather enjoyed the experience."

"While the rest of us were trying to make ourselves presentable the cousin and the mechanic had been rummaging around under the seats and brought out an assortment of alcohol lamps and provisions. The cousin cooked a perfect breakfast. She told stories, read palms and kept us all amused until the races began."

"Philip began to take notice. When she picked the winner he became interested."

"That night we and rooms, but they were uncomfortable, and again the next day all except the cousin were tired

and cross. She saved that second day by forcing us to have a good time. Philip finally became more than interested. We discovered that she had good eyes and the sun, which scorched us, did not affect her skin.

"We motored back to town and had dinner at the club. There was a little dance afterward and Philip found that she could dance."

"So that's how it started. I suppose he's been discovering good qualities in her ever since—she certainly must be a change. I never saw a man more in love."

"Isn't it absurd?" commented the caller. "But the joke is on the rest of us."

The KITCHEN CABINET

DELIVER US from fear and favor, from mean hopes and cheap pleasures. Have mercy on each in his deficiency, let him not be cast down, support the stumbling on the way, and give at last rest to the weary. —Stevenson.

DESSERTS WORTH TRYING.

There are few people who are willing to forego the pleasure of a dessert, and usually feel if none is provided that they have been defrauded. Orange Charlotte.—Soak one and a half tablespoonsful of gelatine in a third of a cup of water. To a third of a cup of boiling water add a cupful of sugar, three tablespoonsful of lemon juice and a cup of orange juice and pulp. Chill in a pan of ice water, when quite thick beat until frothy and add the well beaten whites of three eggs beaten stiff and the whip from two cups of cream. Line a mold with sections of orange. Turn in the mixture and chill.

College Pudding.—Mix a half cupful of butter with one and a half cups of sugar, add four eggs well beaten, one half cup of strained apple sauce, a fourth of a teaspoonful of salt and the juice of lemon. Line a pudding dish with plain pastry, fill with the mixture and bake in a moderate oven. Serve with or without cream.

Blueberry Dumpling.—Sift together two cupsful of flour, four teaspoonfuls of baking powder and a teaspoonful of salt. Add a tablespoonful of butter, and when well rubbed in add three-fourths of a cupful of milk. Put two cupsful of sugar over four cupsful of blueberries with a tablespoonful of vinegar, put into a buttered baking dish. Cover with the flour mixture and bake forty-five minutes. Serve from the dish in which it was baked.

Put a layer of ground pecans or walnuts over the custard pie; the nuts will form a crust over the top, and when baked will be truly delicious. Peach ice cream is delicious. Press the peaches through a sieve after peeling, then add to any ice cream mixture flavored with almond.

POLICE EJECT LATE DINERS

Gotham Squad Creates Near Riot in Cafe Which Failed to Close.

New York, Aug. 13.—Police Inspector John F. Dwyer and Acting Captain Hart created a small sized riot soon after one o'clock this morning by ejecting 150 diners, a third of whom were women, from Healy's restaurant, Columbus avenue and Sixty-sixth street.

Having previously made a general announcement and individually warned every diner in the room that all persons must be out by one o'clock, they evidently felt there was no need for gentleness.

Fifty policemen forcibly carried, pushed and dragged men and women from the restaurant.

LIKE SO MUCH "DEAD HORSE"

Man Who Paid Debt With Check Will Die in the Belief That He Has Settled Twice.

A man made a bet with his wife—which was indiscreet.

The wife won—which was foreordained.

The man wrote the wife a check for \$5 in payment of the bet—which was bad.

The wife cashed the check at the grocery, but forgot to endorse it—which was natural.

The grocer, despite the lack of endorsement, paid it to a packing house collector—which was careless.

The packing house collector turned it in—which was all in a day's work.

A packing house office man discovered the lack of endorsement—which was good work.

He handed it back to the driver and docked the driver's salary—which was system.

The driver placed the check in his white duck coat and sent it to the laundry—which was unwise.

The laundry mutilated the check beyond recognition—which was unwise.

Which is why the driver asked the cashier to ask the grocer to ask the man's wife to ask her husband to write a duplicate check. Which is why the man feels like he is paying that bet twice.

Animal Training.

Most people have heard of the celebrated calculating horses of Elberfeld, who can do anything up to calculating square roots, in addition to being proficient at spelling. It would now appear, according to the Paris Press, that although these feats are actually performed they are due to a very clever device. An animal trainer has informed the Matin that he has utilized a system of wireless telegraphy for training animals to do all sorts of tricks.

The receiver is placed on the horse's bridle, while the trainer or an assistant manipulates the transmitter, and by a code of signals, which are not difficult to teach, the animals can be made to give any desired "answer." It is suggested that this system is used in the case of the celebrated Elberfeld horses. Prior to the utilization of wireless telegraphy, the trainer mentioned employed a method of signals by means of a toothpick.
